

Week 1 Lab: Hands-on Separate Accounts and Reliable Backups

Find your instructions in the file:

W01 Hands-on Separate Backup Instructions.docx

Fill out this worksheet template as you work. When you are finished, save it, and upload it to I-Learn Canvas to be scored. You may earn up to 40 points for this lab.

Task 1: Set up a new secret email account

What email provider did you choose? What steps did you take to sign up? (4pts)	I created a Gmail on google, the steps that I did were: first fill all my personal information, second step was to create my password and login, the third step was entering the authentication code that I received in my cellphone.
Include a captured screen image below, as evidence of completion. (1pt)	 A screenshot of a Gmail inbox. The left sidebar shows the 'Compose' button and folders like 'Inbox', 'Starred', 'Snoozed', 'Sent', 'Drafts', 'Meet', and 'Hangouts'. The main area displays 'Get started with Gmail' with options to 'Customize your inbox', 'Change profile image', and 'Import contacts and mail'. Below this, there are three email notifications: 'Chase Online Servic.', 'Google', and 'Google Community Te.'. At the bottom, it shows '0 GB of 15 GB used'. On the right side, there is a dropdown menu showing a list of signed-out accounts, including 'dayan frazao@gmail.com' and several others with blue bars obscuring their names.

(Details, screenshot)

If someday you need to stop using this account, how would you close it? (2pt)	I would sign out from the account and change to another one.
---	--

Task 2: Set up two-factor authentication and other security settings

What kind of 2FA did you set up? (Examples: code sent to your phone? Device authentication? Something else? explain.) (1pt)	I set up a 2FA that send me a code in my phone for authentication. And I set up a backup code that I can use in case I don't have my cellphone with me.
What steps did you take to set it up? (4pts)	I logged in my account and then I went to the security settings, and I clicked in the option of turning on my 2FA, after that I looked in my account for the option of getting a backup code in case if don't have my phone with me.

(Details)

What other security settings are available for your new email account, and how did you configure them? (4pts)	The other security that I have is an app that shows me the code to enter in my account. I configure them to show in my app on the cellphone the code that I need.
---	---

(Details)

Task 3: Set up email alerts to your new secret account

What steps did you take? (4pts)	I set up my email to receive all the notifications from my bank account, by changing in their website my email account.
---------------------------------	---

(Details)

Task 4: Back up an important document twice

What file did you back up, and on what kind of device did you back it up? (2pts)	I backup my important document file in my other laptop OS.
How did you verify that you can successfully restore that backed up file? (1pt)	I verify that by checking the file in my other device's OS.

(Details)

What online (cloud) storage service did you choose for your second backup, and what steps did you take to sign up for the storage service? (2pts)	I'm storing my document in the drop box, I have installed the app, after that I stored my file inside the drop box for backup.
---	--

(Details)

What steps did you take to back up your file online? (2pts)	I uploaded my file in the drop box site and now I can access to that file in other devices whenever I want.
---	---

(Details)

How did you verify that you can successfully restore your file from the online backup? (2pts)	I have checked that file in my other electronic devices by accessing my drop box account.
---	---

(Details)

What did you learn about your online storage provider's ability to automatically synchronize changes to your backed-up files? (2pts)	I learned how to backup my important documents to make sure I never lose them.
--	--

(Details)

Task 5: Keep your secrets!

Did you redact your secret email address everywhere it appeared in this document? (1pt)	I'm sure that my email is censored in all images and text in this assignment.
What contingency plans have you made in case there's a problem that affects your new secret email address? (3pt)	I will change my password and my login in case it has been hacked, and I have downloaded my backup codes in case I don't have my phone to access my account.

(Details)

While you worked on this lab, what new idea or skill do you think personally benefitted you the most? (5pts)	The most beneficial thing that I learned was how to keep my email account and my files save in my electronic devices.
